PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building performance-driven web applications using React.js, TypeScript, and Tailwind CSS. Skilled in developing responsive, scalable, and user-focused interfaces with strong emphasis on performance optimization, API integration, and UI craftsmanship. Experienced in converting Figma designs into production-ready interfaces and optimizing Core Web Vitals for improved user engagement.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, HTML5, CSS3

Frameworks & Libraries: React.js, Django, WordPress, Tailwind CSS

State Management: Context API, Redux

Tools & Platforms: Git, GitHub, Vercel, Netlify, GoDaddy, Hostinger

Databases: MySQL

Key Skills: REST API Integration, Performance Optimization, Lazy Loading, Image Optimization, Responsive UI, SEO, WCAG Accessibility, Component-Based Architecture

PROFESSIONAL EXPERIENCE

Software Developer Intern

Sep 2025 – Mar 2026

Moonhive Private Limited | Technopark, Trivandrum

- Managed and optimized 3+ production WordPress websites, maintaining 99.9% uptime through server monitoring and hosting management.
- Developed custom themes from Figma designs, delivering pixel-perfect and responsive user interfaces using PHP, HTML, CSS, and JavaScript.
- Built and deployed 5+ custom features and plugins, reducing recurring client-reported issues by 30%.
- Improved website performance by 35–45% using caching strategies, image optimization, and server-side tuning.
- Implemented WooCommerce features and optimized checkout workflows to improve customer experience and conversion flow.
- Enhanced SEO performance and Core Web Vitals across multiple client projects.
- Applied Git workflows including branching, pull requests, code reviews, and merge conflict resolution.

PROJECTS

LUMOS – Accessible Learning App

Tech Stack: React.js, TypeScript, Tailwind CSS, Framer Motion, HTML5 Canvas API

- Built an accessible alphabet-learning application for children with cerebral palsy, achieving WCAG 2.1 compliance.
- Developed an interactive handwriting canvas for alphabet tracing using the Canvas API with integrated audio pronunciation feedback.
- Implemented animation-driven learning experiences using Framer Motion, improving user engagement by 60%.

MENTALPAL – Mental Health Platform

Tech Stack: Python Django, MySQL, JavaScript

- Built backend architecture for a mentor-student mental health support matching system.

- Developed mentor allocation logic that reduced assignment time by 50%.
- Implemented real-time communication, progress tracking, and feedback systems for continuous mentor efficiency improvement.

EDUCATION

Master of Computer Applications (MCA)	2026
<i>LEAD College of Management</i>	
University of Calicut CGPA: 9.0/10	
Bachelor of Computer Applications (BCA)	2022
<i>Sree Narayana College of Technology</i>	
University of Kerala CGPA: 7.01/10	

CERTIFICATIONS

- Frontend Developer (React) – HackerRank (2026)
- Cisco Certified Network Associate (CCNA) (2023)
