SUMMARY

Results-driven **Full Stack Developer** with **6 months of hands-on industry experience** developing production-grade web applications, AI-powered platforms, and scalable backend systems using **Python, Django, React.js, Next.js, TypeScript**, and modern JavaScript frameworks. Experienced in delivering enterprise web applications, integrating **Large Language Models (LLMs)**, **REST APIs**, **Cloud Deployments**, and responsive user interfaces while applying **Object-Oriented Programming (OOP)**, **Data Structures**, **Algorithms**, **Software Development Life Cycle (SDLC)**, and **Problem Solving** principles.

Skilled in building AI-enabled SaaS platforms, secure authentication systems, database-driven applications, and accessibility-focused interfaces using **MongoDB, MySQL, Tailwind CSS, Git**, and **GitHub**. Experienced in **Prompt Engineering, AI API Integration, Frontend Optimization, Backend Development**, and **Cloud-Based Application Deployment**. Passionate about developing innovative AI-powered software products, scalable full-stack solutions, and user-centric digital experiences while continuously learning emerging technologies.

SKILLS

Full Stack Development

Full Stack Development, Frontend Development, Backend Development, Software Development, Application Development, REST API Development, Responsive Web Development, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

Artificial Intelligence & AI Integration

Artificial Intelligence, AI Integration, Large Language Models (LLMs), Prompt Engineering, AI API Integration, Generative AI, Intelligent Automation, AI Application Development

Frontend Engineering

React Development, Next.js Development, Responsive UI Development, User Interface Design, Accessibility (WCAG 2.1), State Management, Performance Optimization, Cross-Browser Compatibility

Backend Development

Python Development, Django Development, Database Design, Authentication & Authorization, CRUD Operations, MVC Architecture, Business Logic Development, API Integration

Database & Software Engineering

Database Management, SQL, MySQL, MongoDB, Database Connectivity, Data Modeling, Version Control, Debugging & Troubleshooting

Professional Skills

Analytical Thinking, Problem Solving, Communication, Leadership, Team Collaboration, Critical Thinking, Adaptability, Time Management, Continuous Learning

TECHNICAL SKILLS

Programming Languages: Python, TypeScript, JavaScript, HTML5, CSS3

Frontend Technologies: React.js, Next.js, Tailwind CSS, HTML5 Canvas API

Backend Frameworks: Django, REST APIs

Mobile Development: Flutter

Databases: MongoDB, MySQL, Supabase PostgreSQL

Artificial Intelligence: Large Language Models (LLMs), Prompt Engineering, AI API Integration, OpenAI APIs, Groq AI, Llama 3.3

Development Tools: Git, GitHub, Visual Studio Code (VS Code), Jupyter Notebook

AI Development Tools: ChatGPT, OpenAI Codex, Claude Code, Antigravity

Cloud & Deployment: Vercel, Cloud Deployment, CI/CD

Operating Systems: Windows, Linux

EXPERIENCE

Developer Intern

Moonhive Private Limited

September 2025 - March 2026, Trivandrum, Kerala

- **Maintained** four production-grade WordPress websites across multiple client environments while ensuring **99.9% application uptime** through proactive monitoring and maintenance.
- **Developed** responsive custom WordPress themes from **Figma** designs, delivering cross-browser compatible user interfaces that successfully passed client acceptance testing.
- **Built** custom WordPress plugins and backend functionalities using **PHP** and **WooCommerce APIs**, reducing recurring client-reported issues by approximately **30%**.
- **Optimized** website performance through caching strategies, image optimization, and server-side tuning, improving **Google PageSpeed** scores from **75 to 100**.
- **Collaborated** with cross-functional teams in Agile environments to deliver production-ready software solutions within sprint timelines.
- **Performed** debugging, testing, deployment, and performance optimization while maintaining coding standards and documentation.

Python Full Stack Developer Intern

Inmakes Infotech Pvt. Ltd

September 2023 – December 2023, Kochi, India

- **Developed** responsive full-stack web applications using **Python, Django, HTML, CSS, and JavaScript**.
- **Designed** and integrated secure **REST APIs** enabling seamless communication between frontend and backend systems.
- **Implemented** authentication, authorization, **CRUD operations**, and **MySQL** database integration following software engineering best practices.
- **Collaborated** with mentors and development teams using **Git** and **GitHub** version control workflows.
- **Performed** debugging, testing, and application optimization to improve software quality and user experience.
- **Participated** in code reviews while continuously improving technical skills through practical project development.

PROJECT

HirePilot AI – AI-Powered Interview Preparation Platform

Next.js | TypeScript | Tailwind CSS | Supabase | Groq AI | Llama 3.3

- **Developed** a full-stack AI-powered SaaS platform that generates personalized interview questions using **LLMs**, resumes, and job descriptions.
- **Integrated Groq AI and Llama 3.3 APIs** to generate AI-driven interview preparation content and candidate evaluations.
- **Implemented** secure authentication and **Role-Based Access Control (RBAC)** using **Supabase Authentication**.
- **Built** AI-powered skill-gap analysis and candidate strength reports through intelligent prompt engineering.
- **Designed** modern responsive user interfaces using **Tailwind CSS** and **Framer Motion**.
- **Deployed** the platform using **Vercel CI/CD**, ensuring high availability and scalability.
- **Documented** AI workflows, software architecture, and deployment pipeline.

LUMOS – Learning Platform for Children

React.js | TypeScript | Tailwind CSS | HTML5 Canvas API

- **Developed** an accessibility-focused educational platform for children with cerebral palsy.
- **Built** an interactive handwriting canvas using **HTML5 Canvas API** for alphabet tracing and real-time stroke rendering.
- **Implemented** animation-driven interfaces using **Framer Motion**, increasing user engagement by approximately **60%**.
- **Designed** accessible user interfaces following **WCAG 2.1 Accessibility Standards**.
- **Optimized** frontend performance for smooth learning experiences across devices.
- **Performed** testing, debugging, and UI optimization.
- **Maintained** project documentation and deployment configurations.

MentalPal – Mentor Communication Platform

Python | Django | MySQL

- **Developed** a full-stack mentor-student communication platform supporting real-time mentor interactions.
- **Designed** relational **MySQL** databases for user management, mentor allocation, and session tracking.
- **Optimized** mentor allocation algorithms, reducing matching time by approximately **50%**.
- **Implemented** secure authentication and database-driven backend services.
- **Developed** responsive frontend interfaces supporting student engagement.
- **Performed** application testing and debugging to improve reliability.
- **Documented** application architecture and implementation methodology.

EDUCATION

Master of Computer Applications (MCA)

LEAD College of Management (Autonomous), University of Calicut • Kerala, India

Bachelor of Computer Applications (BCA)

University of Kerala • Kerala, India • 2022

CERTIFICATIONS

Frontend Developer (React) – HackerRank (2026)

Introduction to Cybersecurity – Cisco (2025)

Cisco Certified Network Associate (CCNA) – Cisco (2023)
